

OSP Roundtable

December 17, 2015

9:30 – 10:30 AM

228 Malott Hall***

*** Note location

Speakers: Cathy Long, Associate Vice President, Research Administration,
Office of the Vice Provost for Research (OVPR)

Paul Davis, Product Manager for the PI Dashboard and Lead Business Analyst,
Research Administration Information Systems, OVPR

The Office of the Vice Provost for Research Introduces the PI Dashboard to Research Administrators

A new PI dashboard, developed by the OVPR, is being launched across campus in December and January. This custom web application will become the primary tool for faculty to obtain the financial and other information they need to administer their projects and funds.

The PI Dashboard offers the same act-as access as OBIEE. Over time, the PI dashboard will incorporate the following:

- December Release
 - Research project budget, expense, spending rate, and balance information
 - Non-sponsored account information
 - Transaction details
- Early 2016 Release
 - Labor expenditures
- Later Releases
 - Financial projections
 - Proposal, award, and protocol status and details
 - Research group membership, training, compliance, and funding status
 - Invention disclosures and marketing information
 - Action lists
 - And more...

This presentation will address:

- How the PI Dashboard fits into OVPR initiatives
- Demonstration

- Development roadmap
- How this fits with other campus reporting tools

Feel free to send me your questions about the PI Dashboard prior to the Roundtable session so I can provide them to Paul in advance.

We look forward to seeing you on December 17!

Christine A. Brown
