OSP Roundtable

Thursday, March 15, 2018

9:30 – 10:30 AM

Plant Science Building, Room 404***

*** Note location

Presenters:

Mary Margaret Klempa, Director OSP

Zach Jacques, Research Administration Information Services

Yaniv Eyny, CEO Novelution

RASS System Project Update and Demonstration

The March OSP Roundtable will focus on the RASS (Research Administration Support System) project. The goal of RASS is to replace existing research administration systems (OSP EZRA, Sponsored Portal, IRB Coeus, IACUC eSirius, Conflicts of Interest eCOI, and IBC eMUA) and manual paper processes with an integrated system to manage proposals, awards, and compliance data.

Please join us for a demonstration of the proposal development features developed to date and an update on the RASS project scope, future plans and timeline. Campus feedback is critical to the successful implementation of RASS and we look forward to hearing your comments and questions. At the end of the session we will provide information on how you can get involved in upcoming usability testing and other system implementation activities.

Feel free to send me your questions about the RASS project prior to the Roundtable session, so I can provide them to Zach, Mary-Margaret and Yaniv in advance of the Roundtable.

We look forward to seeing you on March 15th!
