# Research Administration Support System (RASS)

- RASS project update
- Demo of sponsored project portal features in RASS
- Reporting with RASS
- Demo of reporting features in RASS

## OSP and college research offices using RASS as of March 2019:

- OSP Live in RASS for normal operations
- EZRA to RASS data migration completed
  - RASS is system of record for OSP data
  - EZRA dual data entry to keep the Sponsored Projects Portal and RA Dashboard up-to-date
- Starting October 2019:
  - Distribution emails sent from RASS
  - KFS integration data from RASS instead of EZRA
  - EZRA dual data entry continues to keep the Sponsored Projects Portal and RA Dashboard live

Sponsored Projects Portal features in RASS beginning January 2020:

- Campus users live with RASS
  - Existing functionality replaced with RASS
  - Sponsored Projects Portal offline to campus users

Proposal development features in RASS beginning June 2020:

- Campus users live in RASS for proposal development
- Replace manual/paper processes
  - No more Form-10!

### RASS (New)

For units using the new RASS System

### Sponsored Portal

For units **not** yet the new RASS System

The Research Administration Support System is replacing the Sponsored Projects Portal.

- Units will be migrated one by one to RASS. You will be notified when your unit is switching over.
- Until then, continue using the Portal.
